

SLO Mapping eLumen Training

Today's Objectives

By the end of this workshop, participants will be able to:

- Add Program-level Student Learning Outcomes (PSLOs) for each prefix in eLumen
- Version, deactivate, and remove PSLOs from the SLO listing
- Differentiate between PSLO classes: Accreditation SLOs vs. Core PSLOs
- Map PSLOs to PCC's Institution-level Student Learning Outcomes (ISLOs) in eLumen

Next Steps

- Develop/adapt rubrics for core PSLOs in each prefix
- Training on entering PSLO rubrics into eLumen (forthcoming!)

Thank you for attending this training!
Please be in touch with any questions, comments, and suggestions.

Adding PSLOs

1. Select your Department Coordinator role and organization (a specific program within your department for which you'd like to add PSLOs) from the navigation drop-downs at the top left.

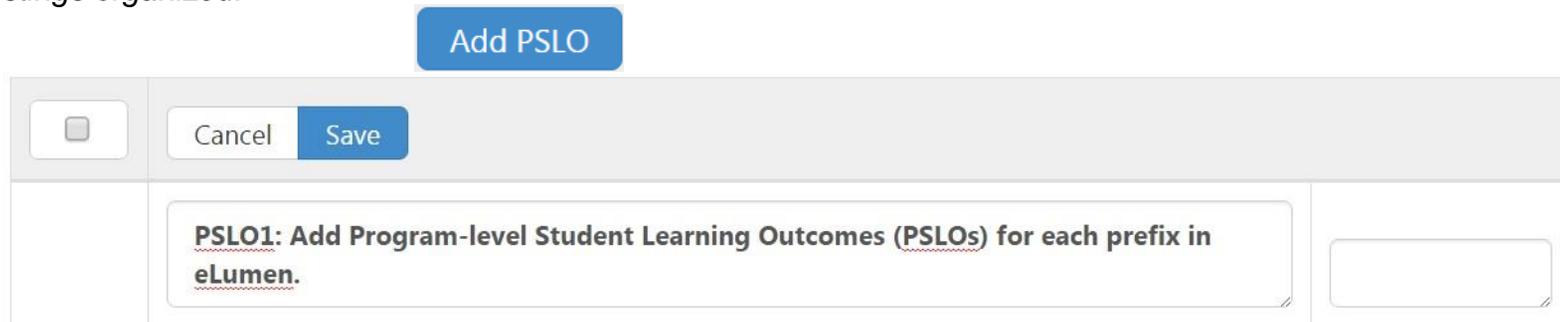

A user profile bar showing a person icon, the name "Elizabeth Medendorp", and the role "as Department Coordinat" with a dropdown arrow. To the right, it says "in Training" with another dropdown arrow.

2. Click the "SLOs & Assessments" tab to view the SLO Listing page. Select the appropriate SLO class (PSLOs or Accreditation, as applicable).

A set of navigation tabs. The top row has "Strategic Planning" and "SLOs & Assessments" (which is highlighted). Below that are "SLOs Listing", "Curriculum Map", "Outcomes Groups", and "Assessments". A second row of tabs includes "CSLOs", "PSLOs" (which is highlighted), "Accreditation", and "ISLOs".

3. Click the "Add PSLO" button.
4. Enter the text of the established PSLO and, if needed, the performance target (if this box is left blank, the default target of 70% will be applied), then click the "Save" button. *Note: Numbering your PSLOs is recommended to help keep your SLO Listings organized.*

A form for adding a PSLO. At the top is a blue "Add PSLO" button. Below it is a header bar with a close button, "Cancel", and "Save" buttons. The main area contains a text input field with the text "PSLO1: Add Program-level Student Learning Outcomes (PSLOs) for each prefix in eLumen." and a performance target input field to its right.

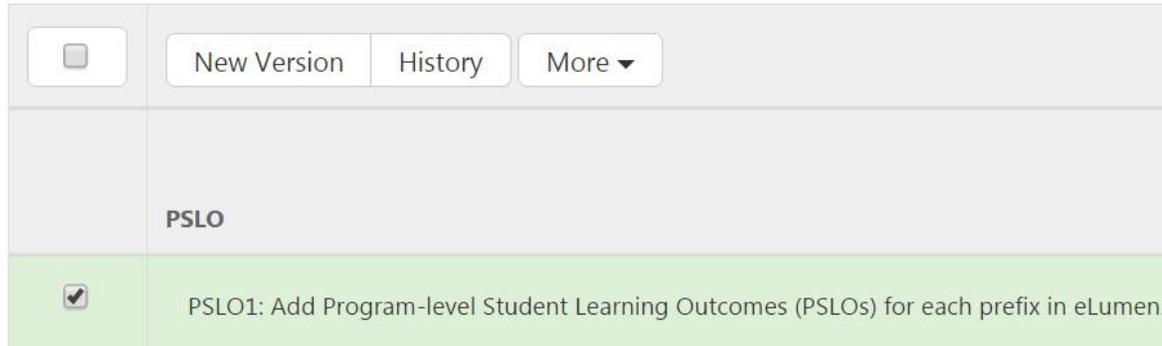

5. On the PSLO Creation page that appears, select the Initial Term for which this PSLO will be used (usually the current or upcoming semester) and then click the "Create PSLO" button.
6. Repeat these steps for all core PSLOs (and accreditation SLOs, as applicable) established for each prefix in your department.

Versioning a PSLO

To change the content of the SLO text, you can create a new version of the PSLO for future use.

Note: Only PSLOs that have already been used for past terms can be versioned.

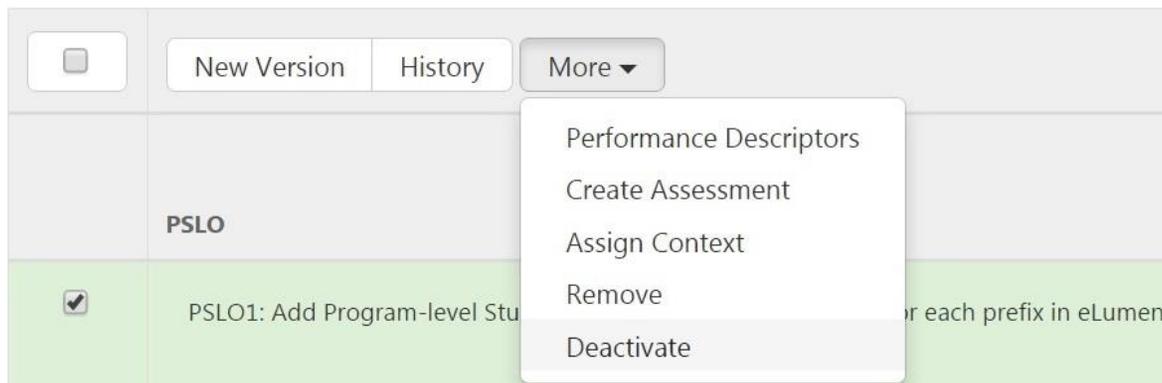

1. Return to the PSLO Listing by following the same steps as outlined above (1-3 for Adding PSLOs).
2. Select the PSLO you wish to change from the list. Click the “New Version” button to open an editable textbox.

3. Update the PSLO text/performance target and click the “Submit” button. On the next page, you will need to select the Initial Term for which the new version will be used, and then confirm by clicking the “Version PSLO” button.

Deactivating/Activating a PSLO

1. Select the PSLO you wish to change from the PSLO Listing and choose “Deactivate” from the “More” drop-down menu.

- To reactivate a PSLO that was previously deactivated, make sure to select “Yes” under the “Include Inactive SLOs” drop-down at the top of the SLO Listing page. Then select the PSLO from the list and click the “Activate” button.

Include Inactive SLOs

<input type="checkbox"/>	Remove	History	Activate
	PSLO		
<input checked="" type="checkbox"/>	PSLO1: Add Program-level Student Learning Outcomes (PSLOs) for each prefix in eLumen.		

- You also have the option to **remove** a PSLO entirely by selecting it from the list and choosing “Remove” from the “More” drop-down menu.

<input type="checkbox"/>	New Version	History	More ▾
	PSLO		
<input checked="" type="checkbox"/>	PSLO1: Add Program-level Student Learning Outcomes (PSLOs) for each prefix in eLumen.		

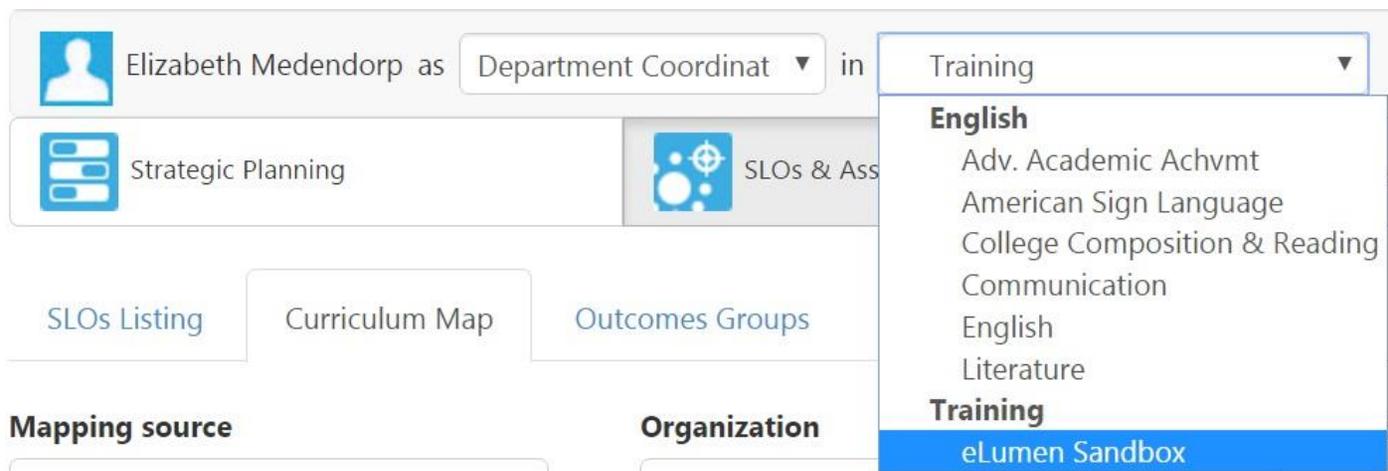

- Performance Descriptors
- Create Assessment
- Assign Context
- Remove
- Deactivate

Mapping PSLOs to ISLOs

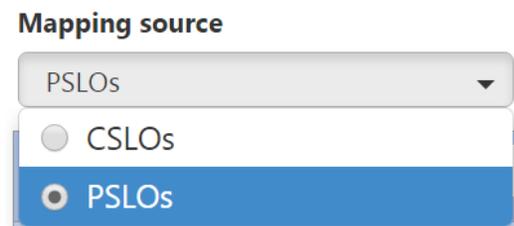

Curriculum Mapping of SLOs within eLumen allows for reporting that aggregates assessment results for the reporting of student mastery of PSLOs and ISLOs.

Note: Mappings of program SLOs onto institute SLOs and course SLOs onto program SLOs should represent the mapping of specific variations of skills or content onto more general skills or content areas. Whereas ISLOs should be global skills that students develop over time, such as communication, PSLOs should be more discipline-specific goals for students completing coursework in a particular program/prefix. CSLOs should be specific outcomes attainable in a single semester.

1. Select your Department Coordinator role and organization (a specific *program* within your department) from the navigation drop-downs at the top left.

2. From the “SLOs & Assessments” page, select the “Curriculum Map” tab.
3. Choose “PSLOs” as your Mapping source.
4. All PSLOs entered into eLumen will be listed down the left side of the SLO Map, and all of PCC’s ISLOs will be listed across the top, with headings for each ISLO category.

- a. You can scroll through the ISLOs using the arrows at the left and right of the top row.

Core ISLOs	ISLO1: Critical Thinking & Problem Solving				
- All Categories -	1a-2: Interpret, analyze, and assess available evidence, information, and ideas	1b-1: Explore implications, inferences, & assumptions	1b-2: Consider other perspectives & possible solutions	1c: Construct and defend logical conclusions that are firmly supported by sufficient and relevant evidence	1d: Formulate creative solutions in consideration of and in response to relevant contexts, opinions, and opposition
Core PSLOs					
PSLO1: Add Program-level Student Learning Outcomes (PSLOs) for each prefix in eLumen.					

- b. To only view the outcomes associated with a particular ISLO category, select the desired category from the “All Categories” drop-down menu.

5. Select the applicable boxes in the matrix to indicate the alignment between your PSLOs and PCC’s ISLOs.

Core ISLOs	ISLO4: Textual Literacy			
ISLO4: Textual Literacy	4a: Recognize, summarize, and explain central and supporting ideas as well as implied and abstract ideas in a variety of written,...	4b: Locate relevant and reliable information from a variety of sources as appropriate for the context	4c: Evaluate the relevance and reliability of information and its appropriateness for the context	4d: Select suitable information and materials and apply proper methods in order to accomplish tasks
